Summary

Software Developer with 2+ years of experience building web and mobile applications using React, Next.js, and React Native. Skilled in frontend development, API integration, and performance optimization, with experience building reliable and user-friendly products.

Education

Sinhgad Institutes, Pune

Bachelor of Engineering in Computer Science (CGPA: 7.98)

June 2019 – July 2023

Pune, India

Experience

Rudisn

Software Developer

April 2026 – Present

Remote

– **AppSecure Vulnerability CMS** (Next.js, React, TypeScript, Tailwind CSS, Supabase, OpenAI API)

- * Developed a web-based **vulnerability database portal** for browsing, searching, and viewing software vulnerabilities (CVEs) with advanced filters and detailed vulnerability pages.
- * Built a responsive **admin dashboard** for vulnerability content management including list views, metadata editing, and publishing workflows.
- * Integrated **REST APIs** for CVE search, vulnerability data, and admin operations with optimized loading states, error handling, and smooth user interactions.
- * Implemented **AI-assisted CVE article generation workflow** with model selection, live preview, and publish flow to streamline content creation.

Upperthrust Technologies Private Limited

Software Developer

Feb 2024 – March 2026

Pune, India

– **Delish Delivery Partner App** (React Native, Redux Toolkit)

- * Developed a cross-platform **delivery partner application** for order assignment, delivery tracking, and COD collection workflows.
- * Integrated **REST APIs** for real-time order synchronization, payment updates, and delivery lifecycle management.
- * Implemented scalable state management using **Redux Toolkit** and optimized API handling for improved performance.

– **KidneyCheQ** (React Native)

- * Developed a real-time **medical diagnostics application** for kidney test analysis using camera-based image processing.
- * Built live frame capture and preprocessing pipelines using **TextureView** for accurate test kit detection.
- * Integrated **AI-powered backend services** for automated report generation and diagnostic analysis.
- * Optimized image processing workflows, contributing to **95% diagnostic accuracy** across Android devices.

Technical Skills

Languages: JavaScript, TypeScript, SQL

Frontend: React Native, React.js, Next.js, Tailwind CSS

Backend: Node.js, Supabase, REST APIs

Databases: PostgreSQL, MongoDB

Tools: Git, GitHub, Postman, Jira, VS Code,
